

David Helton Training & Consulting, PLLC Presents A Training Workshop On
The Substance Abuse Subtle Screening Inventory

Date: 6/12/2020

Time: 8:30am – 4:30pm

Location: The Council on Recovery – Houston, 303 Jackson Hill St., Houston, Texas 77077

Cost: 100.00 per person (or \$65.00 for morning or afternoon session only)

7.0 CEUS (3.5 CEUS per morning or afternoon session) available from Tx Certification Board of Addiction Professionals (SASSI Institute TCBAP Provider # 0623-91)

ABOUT THE WORKSHOP:

8:30am – 12:00pm - Morning Session: SASSI Administration & Scoring Training (The Basics)

Goal: To provide background on the development of the tool, discuss proper/improper use of the tool, and provide basic instruction on how to administer the tool & score it by applying the Decision Rules.

1:00pm – 4:30pm - Afternoon Session: SASSI Clinical Interpretation Training

Goal: To provide in-depth training on clinical interpretation of individual SASSI sub-scales and their use in providing effective client feedback and treatment planning.

Who Should Attend?

This training is for you if you:

- Have never used or been trained on the SASSI
- Have used the tool but want a refresher or formal training
- Have used older versions of the SASSI, but want to review and learn about the changes on the [Adult SASSI-4](#) or Adolescent SASSI A-2

The training is appropriate for anyone who needs to screen for alcohol & drug related disorders. The SASSI is used nationwide by substance abuse counselors, educators, medical practitioners, criminal justice professionals, drug court personnel, employee assistance counselors, and therapists among others.

ABOUT THE SASSI:

The SASSI is a brief & easily administered psychological screening measure that helps you identify both adult & adolescents who may have a substance use disorder. The SASSI also provides information that is useful in treatment planning. The single page paper & pencil questionnaire (also available in computer and web-based formats) can be administered in individual or group settings.

With over 20 years in development & research, the SASSI has an empirically tested overall accuracy of 92% for adults & 94% for adolescents. The SASSI includes subtle questions that have no apparent connection to substance use, allowing identification of individuals with alcohol & other drug problems even if they do not acknowledge substance misuse themselves.

ABOUT THE LOCATION:

The Council provides substance abuse treatment, education and other direct services to over 50,000 clients annually. The mission of The Council on Recovery- Houston is to keep our community healthy, productive and safe by providing services and information to all who may be adversely affected by alcohol and drugs. **NOTE: The views of the SASSI Institute, Inc. or David Helton Training & Consulting, PLLC are not necessarily the views of the Council on Recovery – Houston.**

ABOUT THE TRAINER:

David Helton, LMSW, LCDC has worked in the field of substance abuse for over 30 years, previously as Director of Case Management at the Tarrant Council on Alcoholism & Drug Abuse (now Recovery Resource Council), followed by Addiction Services Division Director for MHMR of Tarrant County. In addition to being a Licensed Chemical Dependency Counselor (LCDC) and a Licensed Masters Social Worker (LMSW), David has also completed "All But Dissertation" (ABD) for his PhD in Social Work with a specialty in the use of the Internet and other technology to deliver social services.

David has published two peer-reviewed journal articles on this topic and was awarded Who's Who Among Students In American Colleges and Universities in 2003 by the University of Texas at Arlington, School of Social Work. In addition to training professionals on the Substance Abuse Subtle Screening Inventory (SASSI) for over 27 years, David has also done extensive training around Texas on substance abuse issues for Child Protective Service workers; has trained on the Addiction Severity Index (ASI) assessment instrument; and has taught Social Work Supervision at the University of Texas – Arlington and Assessment & Case Management, as well as Addiction Pharmacology at Weatherford College as an adjunct instructor. David has also been a federal grant reviewer for the Substance Abuse Mental Health Services Administration (SAMHSA) for over 19 years and the Health Resources Services Administration (HRSA) for 9 years. David is also certified as a Texas secondary public school instructor in the subjects of English and Psychology.
